## LIBRARY BOOK CARE

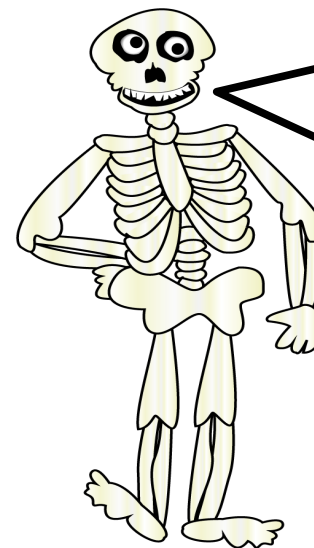

Caring for library books is easy as long as we make good choices. Find and circle the skeletons who made a good choice with their library books. Cross out the skeletons who did not make a good choice with their library books. Then, color and decorate the skeletons.

I left my book out on the playground.

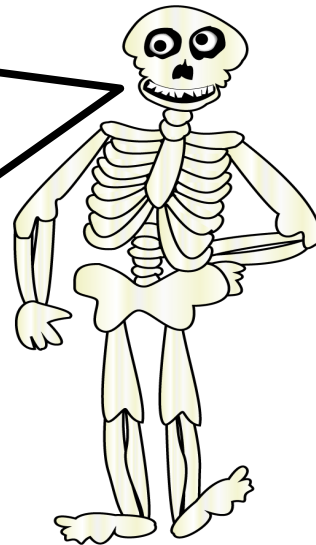

I kept my book away from my snacks.

I left my book out where my pet monster could chew on it.

I kept my paint, crayons, and markers away from my library book.

I kept my library book in a special, safe place and then brought it back on time.
